Contributed to the development of a networking platform for medical professionals by assisting in UI design, mobile application development, feature implementation, testing, and improving the overall user experience.

Education

Sri Venkateswaraa College of Technology - Sriperumbudur

B. Tech - Ai&Ds | CGPA: 7.9

Projects

1. E - Commerce Web Page

A project showcasing my skills, experience, and achievements, built to highlight my expertise in frontend development and practising it.

2. Stop Alert – Smart Travel Alarm Application

Technologies: FlutterFlow, Firebase, Google Maps API, GPS, Push Notifications

- Developed a smart travel alarm application that alerts users before reaching their selected destination using real-time GPS tracking.
- Integrated location-based notifications to prevent users from missing their stops while travelling.
- Designed a modern, user-friendly mobile interface with seamless navigation.
- Implemented destination selection, background location monitoring, and automated alerts.
- Planned scalable features including AI-powered route recommendations, emergency contacts, trip history, and offline support.

Volunteering Services

1. Social Volunteer
2. Event Management Volunteer
3. NSS Volunteer

Achievements & Awards

1. Topper of Blockocast for the academic year 2024-25 organised by SVCT Blockchain Club and Honoured by Dr. S. Lakshmi, Principal, SVCT.
